PROPRIETARY

This document contains information which is proprietary to FACC.

Any reproduction, disclosure or use of this information, without FACC’s prior written consent, is expressly prohibited!

1. EFFECTIVITY

The MSN relationship is provided for information only and is correct at the time of issue in accordance with the information available to FACC.

Aircraft Type	Effectuated MSNs	Part Numbers (P/N) installed
E190 / E195	all with the P/N installed →	190-92766-901, 190-92766-902, 190-92767-901, 190-92767-902, 190-92768-901, 190-92768-902

2. REASON FOR THIS SERVICE INFORMATION LETTER

To inform operators and maintenance organizations about the possibility to replace the existing Forward Flap Track Fairing Lip Seals with the improved FACC E1 Forward Flap Track Fairing Lip Seals and to give a reference to the necessary replacement instructions and EASA DO approval documents.

Benefit from the significant improved meantime between unscheduled removal (MTBUR) due to the new seal material used, which was changed from silicone to polyurethane and the new layout design which improves the erosion resistance of the seals.

3. DESCRIPTION

The FACC E1 Forward Flap Track Fairing Lip Seals can be purchased as kit.

DESCRIPTION	KIT P/N	KIT CONSISTS OF P/N	PRICE (\$)
Pair of Lip Seals FFTF 2	190-60210-200	190-60210-201, 190-60210-202	On request
Pair of Lip Seals FFTF 3	190-60310-200	190-60310-201, 190-60310-202	On request
Pair of Lip Seals FFTF 4	190-60410-200	190-60410-203, 190-60410-204	On request

For the installation and removal of the FACC E1 Forward Flap Track Fairing Lip Seals we have issued corresponding instructions for continuous airworthiness in terms of AMM and AIPC Supplements as follows:
