# FACC PROCUREMENT VISION

We actively shape an international resilient supply chain and aim to establish long-term relationships with our suppliers to support FACC's corporate objectives.

# PURCHASING STRATEGY TARGETS

- Best cost purchasing based on TCA
  - Harmonization of materials
  - Optimization of logistics & packaging
  - Global market competitive sourcing
- Cash Flow Management
  - Consignment stock, payment terms
  - Vendor Managed Inventory (VMI) for C-articles and consumables
- Supply Chain performance enhancement and risk mitigation
  - Long term partnerships
  - 100% on cost, 100% on time, 100% on quality
  - Zero defects
  - Active supplier management using digital collaboration solutions

# DIGITAL PURCHASING PROCESS

# DIGITAL PURCHASING PROCESS

## FACC Supplier Portal/ E-Procurement Platform ARIBA

The FACC supplier portal was introduced several years ago and has been continuously developed ever since. This tool makes it possible to make purchasing processes more transparent and to handle them more efficiently. Furthermore, the flow-down of forecast data is operated in a timely and transparent manner.

With the introduction of the e-procurement platform SAP ARIBA, we are continuing our journey into the digital age in order to meet the current and future challenges of a dynamically changing world.

In a first step –autumn 2023- we have introduced ARIBA Supplier Management. ARIBA Sourcing and ARIBA Guided Buying will follow in future phases. The FACC supplier portal ([www.2facc.com](http://www.2facc.com)) will remain in place, ARIBA is intended to complement and expand our digital collaboration.

# DIGITAL PURCHASING PROCESS

## E-Procurement-Platform ARIBA

With SAP ARIBA, we support our partners in all classic tasks and ensure the digital transformation of the strategic purchasing process. It is the central network for providing and exchanging data and for deepening and simplifying the collaboration between purchaser and supplier.

We use ARIBA Supplier Management to register, qualify, segment and manage our suppliers. Through various questionnaires, you are asked to provide the requested information on all relevant aspects of your business, quality aspects and certificates.

With ARIBA Sourcing we can handle the tender process digitally and with ARIBA Guided Buying we optimise the purchase of catalogue items .

# DIGITAL PURCHASING PROCESS

## Will an ARIBA account be required?

FACC's procurement process is designed to ensure equal and fair treatment of suppliers, enabling participation in a competitive procurement process.

**Suppliers wishing to participate in this process are asked to register as a FACC supplier in the ARIBA Business Network**, a secure online database that FACC maintains for potential suppliers.

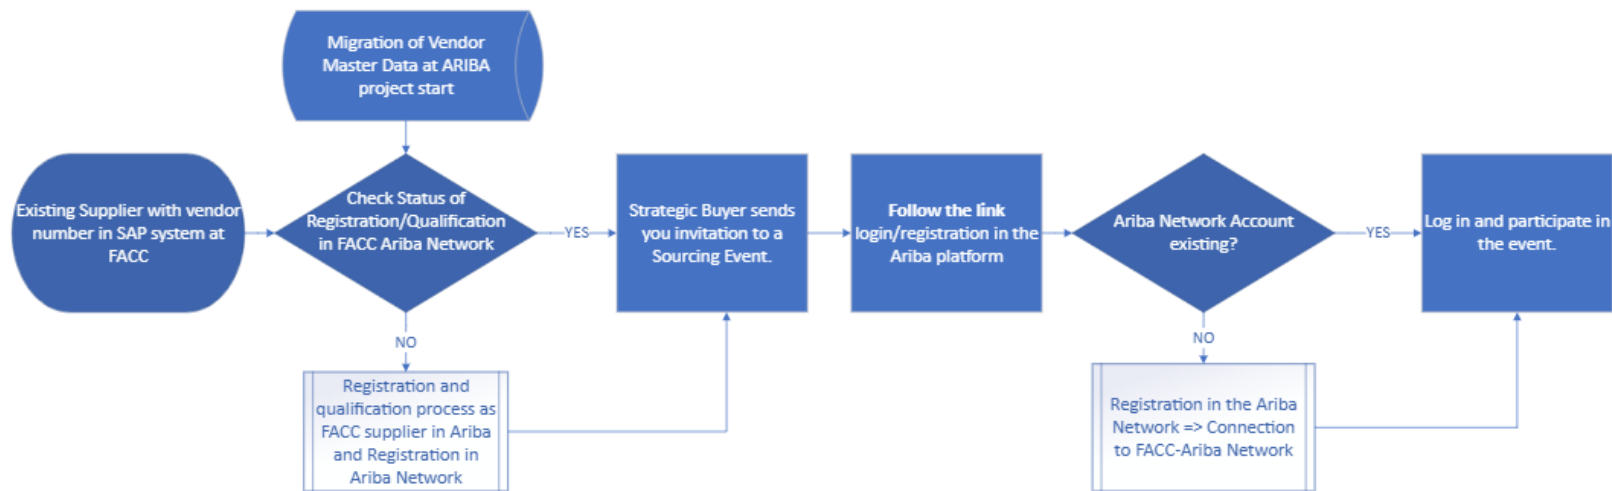

In SAP ARIBA, each (potential) FACC supplier is registered and qualified and **can participate in tenders and the subsequent procurement process.**

**Tenders will only be carried out via the ARIBA network.**

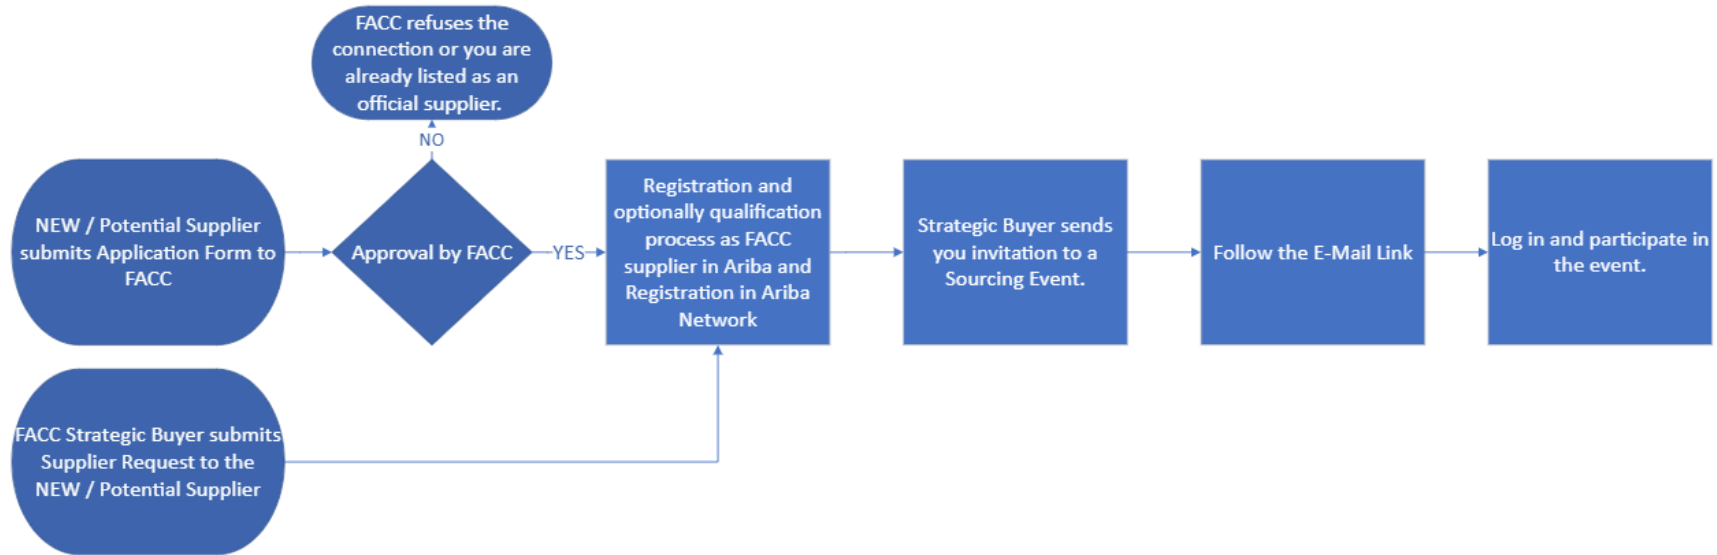

# EXISTING SUPPLIERS

## Process Overview – From Registration/Qualification to a Sourcing Event

# NEW / POTENTIAL SUPPLIERS

Process Overview – From applying as official supplier to a Sourcing Event

# REGISTRATION IN THE ARIBA NETWORK

# REGISTRATION IN THE ARIBA NETWORK

## Introduction

In the future, FACC will handle supplier management and sourcing via SAP ARIBA. For this purpose, you need an ARIBA Standard Account that is linked to FACC. There are two possible ways :

### ➤ **EXISTING SUPPLIER - INVITATION FROM FACC**

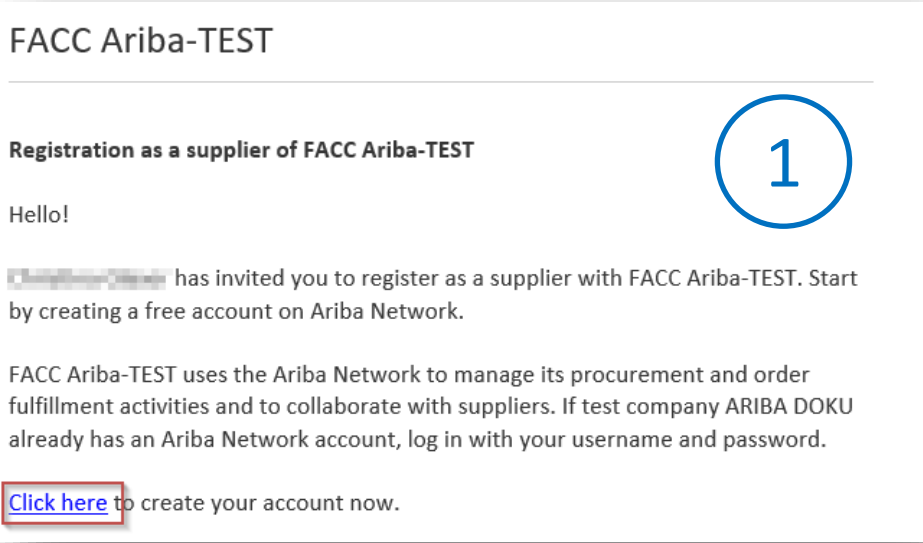

As an **existing supplier**, you will receive an **E-Mail from your responsible Strategic Buyer** for registration, qualification or an invitation to participate in a sourcing event. **Follow the link** in the E-Mail, which will take you to the login/registration in the Ariba platform. Follow the description in this chapter.

### ➤ **NEW SUPPLIER - SELF-REGISTRATION**

You apply to FACC as an official supplier via application link (homepage, email from FACC contact, ....). After approval by FACC you will be redirected to the login/registration on the ARIBA platform. (see chapter „[Become a supplier at FACC](#)“ )

# REGISTRATION IN THE ARIBA NETWORK

## Step by step guide

You receive an email from FACC for registration, qualification, invitation to the sourcing event.

Follow the link with "Click here"

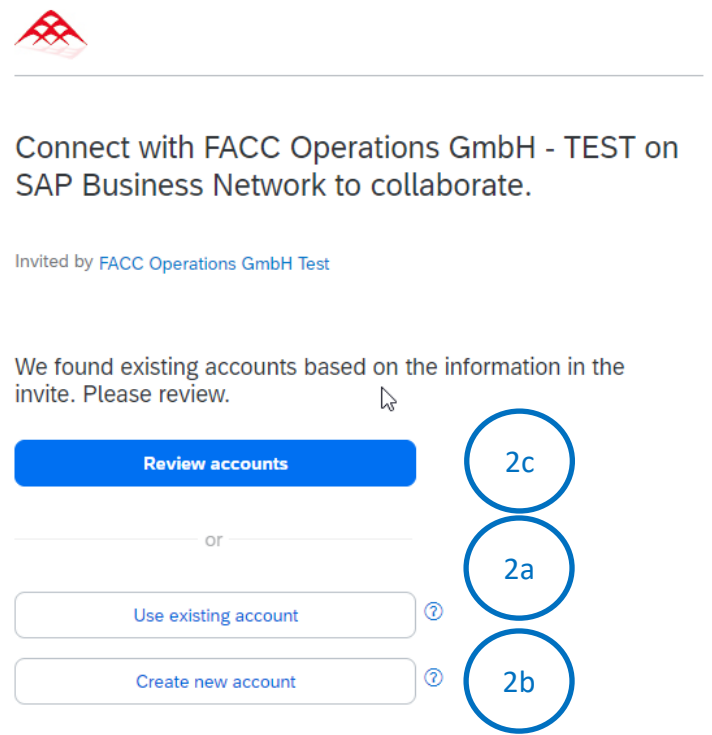

**Note:** Forwarding questionnaires to other Email contacts is not possible. The link to answer the submitted questionnaires only works via the entered Email address.

# REGISTRATION IN THE ARIBA NETWORK

## Step by step guide

2

You can now register or log on to the ARIBA network.

2a

If you already have access to the Ariba network, click **“Use existing account”**, log in and process the FACC registration, qualification or sourcing project.

2b

If your company is new to the ARIBA network, click on **“Create new account”** and continue with step 3 in this chapter.

2c

If you are not sure, first choose **Review accounts** and contact the administrator if necessary.

# REGISTRATION IN THE ARIBA NETWORK

## Verification of potential accounts

You will now see the potentially existing accounts.

You can check the account information and select “Contact administrator” to reach the person who previously created an account.

### Review matched accounts

Your company may already have an account. Please review the accounts in the table below.

Search Criteria | Edit

Company Name | E-mail address

Test |

Search results (20) | ★ Means you are a user of this account **Bold font:** Matched values

Company name	Email domain matched	Country	State	DUNS number	Action
★ Smoke Test GmbH (Ariba)	Yes	Austria	Upper Austria		<a href="#">Use this account</a>
Test	No	Japón	東京都		<a href="#">Contact administrator</a>
Test	No	Canadá			<a href="#">Contact administrator</a>
test	No	Alemania	Brandenburg		<a href="#">Contact administrator</a>
Monastyrska test	No	Ucrania			<a href="#">Contact administrator</a>

**Please avoid creating duplicate accounts unnecessarily.**

# REGISTRATION IN THE ARIBA NETWORK

## Contact administrator of an existing account

Contact administrator ×

To obtain a user account, please provide the requested information below:

Your name \*

Your company name \*

Your email \*

Your phone number

Your message \*

Hello,

I recently attempted to create an account on Ariba Network. During the account creation process, SAP Ariba returned your account as a match.

Please contact me to determine if I should use this account.

Thank you.

I'm not a robot  reCAPTCHA  
Privacy \* Terms

2c

You can send an E Mail to the administrator of the account to check if you can use the account or to create another account. You can now pause the registration and wait for the administrator to reply. The administrator can add you as a new user to an existing account if necessary.

If you cannot use an existing account, log in again via the initial e-mail from FACC and select option 2b.

### Registration as a supplier of FACC Ariba-TEST

Hello!

**[Redacted]** has invited you to register as a supplier with FACC Ariba-TEST. Start by creating a free account on Ariba Network.

FACC Ariba-TEST uses the Ariba Network to manage its procurement and order fulfillment activities and to collaborate with suppliers. If test company ARIBA DOKU already has an Ariba Network account, log in with your username and password.

[Click here](#) to create your account now.

Registration in the Ariba network >>> next chapter!

# REGISTRATION AS FACC SUPPLIER IN THE ARIBA NETWORK

# REGISTRATION IN THE FACC ARIBA NETWORK

## Introduction

Registration as an official FACC supplier in the Ariba network is necessary so that you can be invited to sourcing events. There are 3 possible ways in how you can be “registered” as a supplier in the FACC Ariba account:

- Existing supplier:
  - Either you have already received the status “Registered” during the master data migration,
  - or you will be invited by E-Mail from your responsible Strategic Buyer to register as “FACC Supplier”.
  
- Application as a new supplier (see chapter “Become a supplier at FACC”)

You apply to FACC as an official supplier via application link (homepage, E-Mail from FACC contact,...). After approval by FACC you will be forwarded to the login/registration in the Ariba platform and then you can fill out the FACC registration form.

# REGISTRATION AS FACC SUPPLIER

Congratulation! You are now registered in the  
FACC ARIBA network and can participate in  
sourcing events!

# SUPPLIER QUALIFICATION

# SUPPLIER QUALIFICATION

## Introduction

Qualifications as a supplier for certain combinations of commodity groups, departments and regions (optional) takes place in the ARIBA network and is the prerequisite for listing as an official supplier to FACC.

Only suppliers that pass the qualification process are synchronised with the FACC ERP system and are then available to operational purchasing as an official source of supply. Existing Suppliers have received a predefined qualification status during master data migration at project start. New suppliers must complete the qualification form and go through the qualification process.

Multiple qualifications for different combinations of commodity groups, departments and regions (optional) are possible and suppliers can also be disqualified again.

# QUALIFICATION

## FACC qualification sheet Step by step guide

Your qualification is initiated manually by the Strategic Buyer at FACC.

### FACC Ariba-TEST

1

**Qualification questionnaire** to become a qualified supplier with FACC Ariba-TEST

Hello!

Now that Testfirma ARIBA DOKU is registered as a supplier with FACC Ariba-TEST, you're invited to fill out one or more questionnaires to become qualified in the following categories:

- **Electronics in Europe**

[Click Here](#) to fill out the questionnaire

You will receive a qualification email from FACC.

### General Quality Information for Suppliers

Please check the "Quality Requirements for Suppliers FQS 05 008 02" (download possible) and give your consent.

The screenshot displays a SAP ARIBA qualification sheet interface. At the top, a tab labeled "5 General Quality Information" is active. Below it, a question is posed: "5.1 Does your organization comply with the requirements of FQS 05 008 02 'Quality Requirements for Suppliers'?" This question is marked as mandatory with a red asterisk. To the right of the question is a dropdown menu currently set to "Yes". Below the question, a "Reference Documents" section is visible, containing two PDF links: "SPC\_FQS\_05 008-05\_REV\_G\_Qualitäts und Dokumentationsanforderungen\_DE.pdf" and "SPC\_FQS\_05 008-05\_REV\_G\_Quality and Documentation requirements\_EN.pdf". A red box highlights the "Download all attachments" button. A blue circle with the number "7" is overlaid on the interface, pointing to the mandatory field. A note at the bottom right states: "Mandatory fields are marked with '\*'"

# QUALIFICATION

## FACC Qualification

### Approval

As soon as FACC has checked the external qualification questionnaire and completed the internal questionnaire, you will receive an information email about the successful registration.

Congratulation! You are now qualified in the FACC ARIBA network and are therefore also listed as a supplier in the FACC ERP system!

## FACC Ariba-TEST

### Qualification request with FACC Ariba-TEST.

Congratulations! Testfirma ARIBA DOKU is now qualified to sell in the following categories to FACC Ariba-TEST:

- Electronics in Europe

24

You will be notified when next steps as part of a procurement or sourcing process require your attention.

# QUALIFICATION

## FACC Qualification rejected

If a qualification is rejected by FACC, you will receive a rejection email.

If this qualification is initiated again by FACC, you can revise the original response and submit it to FACC. If the supplier requests further information, the same input mask appears.

### FACC Ariba-TEST

**Qualification request with FACC Ariba-TEST has been declined.**

FACC Ariba-TEST has reviewed the qualification questionnaire responses from Testfirma ARIBA DOKU and has decided not to award Testfirma ARIBA DOKU a qualified status at this time for the following categories:

- 3D print in

# CERTIFICATES MODULE- QUESTIONNAIRE

# CERTIFICATES MODULE-QUESTIONNAIRE

## Introduction

Outside the life cycle processes, there is the possibility of transmitting or obtaining information via modular questionnaires. These are based on individually customisable templates created by FACC.

Certificates are a special type and sub form of modular questionnaires.

Via a certificate request, you can upload certificates and transmit all relevant information (such as certificate name, expiry date, date of issue, issuer, ...)

As soon as a certificate that you have uploaded via a modular questionnaire expires, you will automatically receive an info mail to update it.

# CERTIFICATES MODULE-QUESTIONNAIRE

## Step by step guide

The certificate request is initiated manually by the Strategic Buyer at FACC.

### FACC Ariba-TEST

---

Hello Testname Testsurname,

FACC Ariba-TEST has invited you to complete a questionnaire. This is required so Testfirma ARIBA DOKU can do business with FACC Ariba-TEST.

#### Questionnaire Overview

Questionnaire name: Small Business Certificate Questionnaire

Respond by: Sat, 30 Sep, 2023

Update Request Comments:

[Submit questionnaire](#)

Best,

SAP Ariba team

1

You will receive an email from FACC regarding a certificate request.

Follow the link

["Submit questionnaire"](#).

**Note:** Forwarding questionnaires to other Email contacts is not possible. The link to answer the submitted questionnaires only works via the entered Email address.

# CERTIFICATES MODULE-QUESTIONNAIRE

## Step by step guide

You can now log in to the ARIBA network.

# HOW TO CONFIGURE YOUR ARIBA PROFILE

# HOW TO CONFIGURE YOUR Ariba PROFILE

## Account Settings

You are the administrator. Click on the profile icon and select "Company profile".

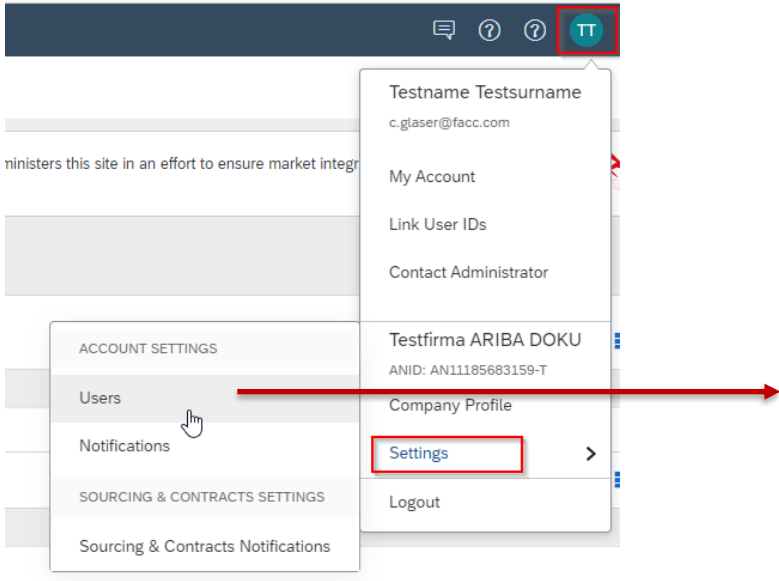

You will see different tabs to add content to your business profile. The more your profile is updated, the better other companies will be able to find and contact you.

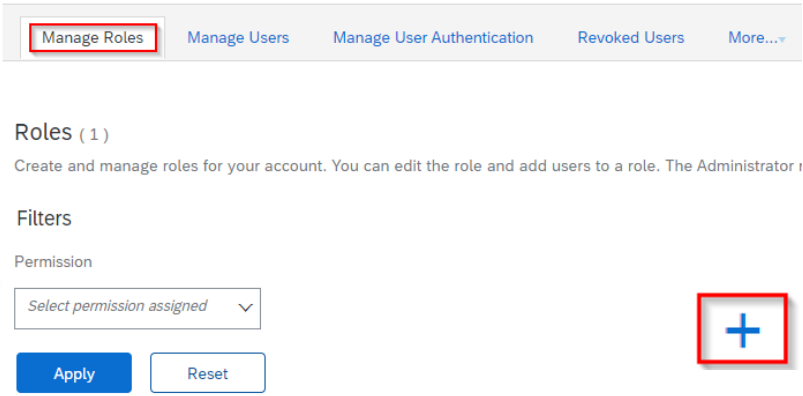

# HOW TO CONFIGURE YOUR Ariba PROFILE

## Add Roles and Users

Click on your profile icon  
Go to "Settings" > "Users"

First you must assign a role with corresponding permissions.  
Click on the tab "Manage roles" and then on the "+" sign.

# HOW TO CONFIGURE YOUR ARIBA PROFILE

## Add Roles and Users

Create Role

\* Indicates a required field

New Role Information

Name: \*

Description:

Permissions

Each role must have at least one permission.  
Upgrade your Ariba Network, standard account to an enterprise account to enable all permissions.

<input type="checkbox"/>	Permission	Description
<input type="checkbox"/>	Access Proposals and Contracts	View your organization's Ariba Sourcing events and Ariba Contract Management content to participate in events or contract tasks

Office Phone:

---

Role Assignment

Name	Description
<input checked="" type="checkbox"/>	Customer Contact

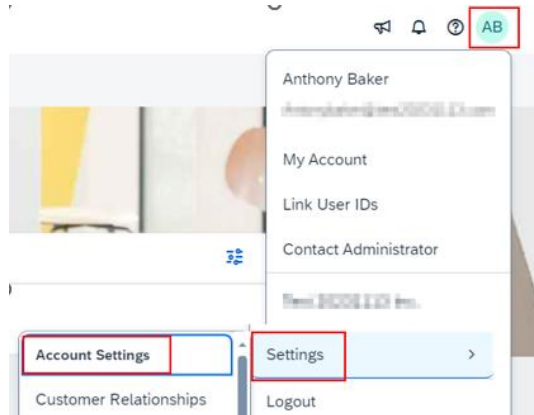

Create the user and select the previous defined role.

If your company is already connected to other customers, you can assign internal users for individual customers here. Then you can manage their clients separately via the account. Click on "Done". The new user receives an email with the access data.

# ADMINISTRATOR

## How do I change the Administrator

- You're the current administrator user and you'd like to transfer the administrator role to another user that already exists in the account
  - If you currently have the **Administrator** role assigned to your user, use the following procedure to transfer the administrator role to another existing user:
    - Click **[user initials]** in the upper-right corner of the application
    - Click **Settings > Users**
    - Click the **Manage Users** tab
    - To the right of the user you would like to transfer the account to, click **Actions > Make Administrator**
  - Since only one user can administer an account at a time, you must select a new role for your user.
    - Select a role for your own user and click **Assign**
    - Click **OK** to transfer the account administrator role

- The previous account administrator left your company, but you have access to the email address associated with their user profile
  - Reset the account's password, then reassign the account using one of the previous methods:
    - On the [Supplier Login page](#), click the **Password** link
    - Enter the email address associated with the previous administrator's user profile
    - Select **Submit**
    - SAP Business Network sends a password reset to the email address you entered
    - Follow the instructions in the email to reset the profile's password and sign in
  - After you sign in, you can transfer the administrator role to an existing user or update the the administrator user's info

- You have access to the previous administrator's account and you'd like to make yourself (or another employee) the administrator
  - Update the administrator account's details to reflect the new administrator's information:
    - Click **[user initials]** in the upper-right corner of the application, and select **My Account**
    - Update this page with the new administrator information. Remember to change the following:
      - Username
      - User's full name
      - User email
      - Contact information
    - Click **Save**

# FAQS

The following questions and answers may help you

What happens if I have not received the registration link?

- The problem could be related to your mail setting. Make sure that ariba.com is on the whitelist.
- Search your mailbox for an email with the following email subject: "Invitation to register as a supplier at FACC".
- Search for the invitation in all your folders, e.g. in your mailbox, junk or spam folder.
- Check whether one of your colleagues has received the invitation instead of you.
- Contact the responsible Strategic Buyer at FACC.

I already have an SAP ARIBA network account. Can I use it for FACC as well?

Yes, you can use your existing SAP ARIBA network account. Click on the link in the invitation email and select the "Log in" button.

# FAQS

The following questions and answers may help you

I am having trouble logging in with my ARIBA network account credentials. What am I supposed to do?

If this problem occurs, it could be one of the following scenarios:

- You have already logged into your existing account and subsequently also clicked on the link in the email for the first time.  
**IMPORTANT:** The system interprets this as an attempt to log in twice. You must either click on the link in the email or log into your existing account and navigate to the ARIBA Sourcing screen. You cannot do both!
- If another SAP ARIBA page opens in a different browser tab, close the other tab and try to log in again.
- If you receive a certificate error in your browser when you try to access the ARIBA network login page at <https://supplier.ariba.com>, please clear your browser cache, cookies, and search history. Close the browser and try to open the page again.

# FAQS

The following questions and answers may help you

I got the following message during registration “The user already exists. Enter a different user name”.

The username you selected has already been assigned. Choose a different username when registering on the ARIBA network. If you already have an account on the ARIBA network and want to link to FACC, select the button “Login” (instead of “Register”).

Why do I get the following message on the SAP ARIBA login page?  
“You do not have the permission to view the event or the link you clicked is invalid”.

If you have multiple accounts, make sure you are logged in to the account associated with this document, task or event. Click on “Back” to see other events you are invited to.

# FAQS

The following questions and answers may help you

I have opened the link but I got the error message: ERR\_CONNECTION\_TIMED\_OUT error. Can I fix it?

This is usually the result of a slow network connection (busy public hotspots) or a firewall blocking the website. To ensure that the firewall does not reject ARIBA web content , please contact your IT to have the required domains and IP ranges whitelisted (for technical information, please contact the Help Centre)

My colleague added me to ARIBA but I can not see the FACC content.

The person who created the ARIBA network account is the administrator. He or she can add new users. See the section “To configure your ARIBA network account” for more information. However, this does not mean that the user automatically sees the FACC content. Only if the added user receives an invitation link to FACC’s registration, qualification, modular questionnaire or call for tenders, it will be unlocked to FACC’s content on the ARIBA network.

# FAQS

The following questions and answers may help you

How can I update my response of the Registration/Qualification questionnaire?

You can update the content of the registration/qualification questionnaire at any time. Simply enter your ARIBA network account under [Supplier.ariba.com](http://Supplier.ariba.com). Navigate to the relevant questionnaire. After you have opened the questionnaire, you can click on “Revise answer”, update your data and submit it again.

Can questionnaires be forwarded internally and answered by colleagues?

No, this does not work! It is not possible to forward questionnaires (e.g. registration questionnaires) to other e-mail contacts. The link to answer the submitted questionnaires only works via the registered e-mail address. Existing contact: The questionnaire must be transmitted by FACC to the other contact person. New contact: The new contact person must be created in Ariba (by FACC or your primary contact). The questionnaire must then be sent by FACC to the new contact person.

# FAQS

The following questions and answers may help you

How can I access my ARIBA dashboard?

Simply enter your ARIBA network account under [Supplier.ariba.com](https://Supplier.ariba.com)

What if an unknown user wants to register? What should I do in case of fraud?

The first user of a company is also the administrator (can be changed). If another user registers, the administrator will receive a mail to approve/reject this user.  
See the section “Registration in the ARIBA network”, “Approval by the administrator”.

# FAQS

The following questions and answers may help you

How do I update my profile in Ariba? (E-Mail, Telephone, Username,...)

Enter your ARIBA network account (e.g. via Supplier.ariba.com).  
Click **[user initials]** in the **upper-right corner** of the application.  
Click **My Account**.  
Edit any fields as needed and **SAVE**

I have forgotten my Username or password?

Enter your ARIBA network account (e.g. via Supplier.ariba.com).  
When you are asked to enter the Username/Password press either “Forgot Username” or “Forgot Password” and follow the instructions.

# FAQS

The following questions and answers may help you

How do I link user IDs?

If you have multiple accounts that you maintain or have access to, it can be difficult to remember different usernames and passwords. Linking user IDs allows you to seamlessly login to one account, then switch to any other linked usernames with a click instead of having to logout and log back in with a different user ID.

In the upper-right corner of the application, click **[user initials]** > **Link User IDs**.

- If you know the username and password for the account you wish to link:
  1. Enter the login information under the **No Approval Needed** heading.
  2. Click **Link Accounts**.
- If you do not know the username and password:
  1. Enter the username for the user account you wish to link to under the **Approval Needed** heading.
  2. Click **Send link request**.
    - This will send an email to that user with the option to accept your link request.

In order to switch to the user once it has been linked:

1. In the upper-right corner of the application, click **[user initials]** > **Switch Account**.
2. Click the **name** of the account holder. You must click the **[user name]** in order to switch to the user that has been linked. If you click anywhere else, it will not switch successfully.

# FAQS

The following questions and answers may help you

How do I merge/consolidate accounts?

It is not possible to merge two accounts that have different SAP Business Network IDs, however, you do have some consolidation options:

Complete consolidation (SAP help)

Account hierarchy (SAP help)

Linking User IDs (see this description).
